

AMFM-2526-523-Alternative Investments Part II (Private Equity)

Name of lecturer(s) & Email Gregory Chouette gchouette@landypartners.com Arnaud d'Yves de Cartier adecartier@gmail.com Bruno Farber b.farber@ginkgo-advisor.com	Level/ Semester, Status, Timing Semester 2 Compulsory Between 21-03-26 and 15-05-26	ECTS*, CH & SDL** 3 24 55.5
Description of the course <p>This course provides a deep dive into the private equity industry, a major pillar of alternative investments. It covers the full lifecycle of private equity: from fundraising and capital deployment to portfolio management and exit strategies, through a blend of theoretical insights and practical case studies.</p> <p>The first sessions introduce the structure of private equity funds, the roles of limited and general partners, and the regulatory and contractual frameworks. Students will learn about the key investment strategies, including leveraged buyouts, venture capital, growth equity, and special situations.</p> <p>The second part focuses on transaction execution and value creation: sourcing deals, performing due diligence, structuring and financing acquisitions, and driving operational improvements. Tools for company valuation, performance measurement (IRR, MOIC), and incentive design will be discussed in detail.</p> <p>Throughout the course, real-world examples and case studies will be used to critically assess the effectiveness of private equity strategies and the challenges they face in today's financial markets.</p>
